PROFESSIONAL SUMMARY

UI/UX Designer with fullstack development fluency. Bachelor's in Software Engineering with a record of shipping user-centered products from wireframe to production. Combines design systems, interaction design, and Figma workflows with the ability to implement in React.js and SQL-based backends, reducing dependency on engineering handoff and speeding iteration. Experienced across the product lifecycle, from user research and prototyping to deployment and maintenance.

EDUCATION

Bachelor of Software Engineering

University of Engineering and Technology (UET) Taxila

Nov 2021 to June 2025

Taxila, Pakistan

SKILLS

UI/UX Design: Wireframing, Prototyping, Interaction Design, User Flows, Usability Testing

Design Tools: Figma, Adobe XD, Illustrator, Photoshop, After Effects, Premiere Pro, Framer, Unicorn Studio

Figma: Advanced Auto Layout, Components, Variables, Dev Mode, Prototyping, Design Handoff

UX Methods: User Research, Personas, Empathy Mapping, Journey Mapping, A/B Testing

Design Systems: Component Libraries, Token-based Design, Visual Hierarchy, Mobile-first Design

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Databases: MySQL, Oracle DB, Firebase, MongoDB, MariaDB

Dev Tools: Git, GitHub

Soft Skills: Cross-functional Collaboration, Agile/Scrum, Client Communication

EXPERIENCE

UI/UX Designer

Hexler Tech

August 4, 2025 to June 30, 2026

Islamabad, Pakistan

- Built a reusable Figma component library and design system to standardize handoff, cutting client revision cycles by 40% and shortening delivery timelines across engagements.
- Delivered responsive, cross-browser interfaces aligned to WCAG accessibility guidelines, reducing post-launch UX defects reported by clients.

UI/UX Engineer Intern

Inara Technologies

Jun 2024 to Aug 2024

Islamabad, Pakistan

- Produced developer-ready wireframes and high-fidelity prototypes across multiple sprints, reducing ambiguity in engineering handoff and rework.
- Ran heuristic-based usability reviews on a SaaS dashboard, identifying specific flow-level friction points that informed the next design iteration.

PROJECTS

Kricket.pk: Cricket Platform UI Redesign

React.js · Tailwind CSS · JavaScript

Feb 2025 to July 2025

- Redesigned a homepage that previously surfaced live scores, fixtures, and articles as one undifferentiated block with no visual hierarchy, replacing it with a visual-first hero section and an alternating full-screen/half-screen grid rhythm.
- Separated content into distinct tabs and sections (live matches, news, fixtures) so users land on a clear focal point instead of a dense data dump, improving scannability of the homepage.
- Built a fully responsive React.js frontend with a strict component hierarchy, maintaining consistent layout and information hierarchy across mobile, tablet, and desktop.

Finance Management Portal: UI Design and Full-Stack Implementation

React.js · Tailwind CSS · JavaScript · MySQL

Oct 2024 to Dec 2024

- Designed a personal finance dashboard with expense tracking and budget visualization, prioritizing at-a-glance financial clarity over dense tabular data.
- Implemented a MySQL-backed data layer with real-time chart rendering to convert raw transaction records into readable visual summaries.

Parking Management System: Full-Stack Application

Jun 2024 to Aug 2024

React.js · Tailwind CSS · JavaScript · Oracle DB

- Designed a real-time occupancy dashboard enabling facility operators to view and allocate parking slots instantly.
- Architected role-based Admin and End User views so each stakeholder only sees workflows relevant to their responsibilities.

Fatwrap: Brand Identity, UI/UX Design & Social Media Marketing

November 9, 2025

Figma · Adobe Illustrator · Photoshop

Bakery Brand

- Designed end-to-end UI/UX, from user journey maps through prototypes, for a food brand's ordering experience, from menu browsing to order confirmation.
- Designed a mobile-first interface with food-forward visual hierarchy and clearly placed CTAs to support conversion goals.
- Ran Instagram campaigns for the brand, producing mostly static posts alongside a handful of reels to build visibility and engagement.

Sugarloop: Brand Identity, UI/UX Design & Social Media Marketing

October 14, 2025

Figma · Adobe Photoshop

Bakery Brand

- Developed user personas, empathy maps, and interaction flows to translate the brand's product experience into a digital presence.
- Designed a high-fidelity mobile interface with a visual product showcase and a streamlined ordering flow to reduce steps from discovery to checkout.
- Ran Instagram campaigns for the brand, producing mostly static posts alongside a handful of reels to promote the doughnut offerings and grow audience engagement.
